SUMMARY

Frontend Developer specializing in React.js, TypeScript, and modern web development, with experience building responsive and user-focused applications. Strong foundation in JavaScript, REST APIs, state management, performance optimization, Git, and SQL, with hands-on experience across modern development tools and programming languages. Currently expanding into backend development with Node.js to build end-to-end web applications and develop toward full-stack software engineering. Seeking a Junior Frontend Developer or Frontend Engineer role where I can contribute to production-quality applications while taking ownership of features and collaborating effectively with a development team.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), React Router, Redux Toolkit, Tailwind CSS, Bootstrap, Responsive Web Design.

Web Development: HTML5, CSS3, REST APIs, HTTP, Axios, State Management, Authentication & Authorization, Web Accessibility, Performance Optimization, Core Web Vitals.

Databases: SQL, PostgreSQL, MySQL, SQL Server.

Programming Languages: JavaScript, TypeScript, Python, Java, C++, PHP, SQL.

DevOps & Tools: Git, GitHub, CI/CD, Docker, GitHub Actions, Vite, npm, Postman, Figma.

Engineering: Object-Oriented Programming, Data Structures & Algorithms, Debugging, Git Workflows, Clean Code, SOLID Principles, Software Architecture Fundamentals.

Experience

Frontend Developer & QA | Arrow Up Partners

04/2026 – 06/2026

- Debugged and resolved 15+ frontend issues across React components, improving application stability and reducing UI errors by ~30% during testing.
- Identified and optimized 3 rendering bottlenecks in rendering logic, improving perceived load performance by ~25% and UI responsiveness.
- Improved SEO structure across 10+ key pages by updating meta tags, page structure, and indexing readiness for key pages.
- Collaborated with a team of 3-4 developers to fix UI inconsistencies across 10+ components, enhancing overall user experience.

Frontend Developer | Taw3ya

07/2024 - 1/2025

- Developed and distributed a production-ready Quran web application for a private client using React.js, React Router, Bootstrap, and REST APIs, supporting complete Quran content across 114 chapters.
- Implemented chapter navigation, verse search, audio playback, and dynamic routing across all 114 Quran chapters, improving content accessibility and user navigation.
- Managed project milestones over a 3-month engagement, delivering the application on schedule.

Frontend Developer Intern | Master Web

11/2024 - 01/2025

- Converted 3–4 PSD designs into responsive, pixel-perfect web pages using HTML5, CSS3, and JavaScript.

- Built responsive UI components for 3–4 projects and incorporated feedback from senior developers to improve code quality and maintainability.
- Contributed to 3–4 projects while adhering to company coding standards, improving consistency, maintainability, and responsiveness across presented pages.

PROJECTS

Typing Speed Test App | *Vanilla JavaScript · Tailwind CSS*

- Created a real-time typing speed calculator with multiple difficulty levels and mobile-friendly interactions.
- Refactored reusable utility functions, reducing code duplication and improving maintainability.

Task Management Application | *React.js · Redux Toolkit · Tailwind CSS · localStorage*

- Architected a responsive task management application featuring date-based scheduling, recurring tasks (daily, weekly, monthly), task pinning, priority management, filtering, task descriptions, and completion tracking.
- Integrated centralized state management with Redux Toolkit, reusable React components, persistent localStorage storage, task reordering, and productivity analytics through a responsive dashboard.

Portfolio Website | *React.js · SCSS · Bootstrap · React Router*

- Deployed a personal portfolio showcasing 13+ projects, achieving a Lighthouse Accessibility and SEO score of 90+.
- Reduced image payload by lazy loading, improving Time to Interactive on mobile devices.
- Performed manual regression testing before every deployment

EDUCATION

Faculty of Computers & Information Technology | Damanhur University *09/2020 - 07/2024*

- Competed twice in ICPC regional programming contests.
- Ranked among the Top 4 teams out of 50 in the Egypt Makes national technology competition.

Certifications

Frontend Web Development Certificate | Instant Academy | *08/2023 - 02/2024*

Completed an intensive 6-month program covering HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, REST APIs, and responsive web design.
