SUMMARY

Frontend Developer with 2+ years of experience building responsive web applications using React.js, JavaScript, TypeScript, Redux Toolkit, and RESTful APIs. Skilled in state management, performance optimization, API integration, responsive design, and translating Figma designs into scalable, production-ready applications. Seeking a Frontend Developer opportunity to contribute to modern web solutions and continue growing technical expertise.

Experience

Frontend Developer (Freelance) | Arrow Up Partners 04/2026 – 05/2026 (2 weeks)

- Debugged and resolved multiple frontend issues across React components, improving application stability and reducing UI errors during testing.
- Identified and optimized performance bottlenecks in rendering logic, improving perceived load performance and UI responsiveness.
- Improved SEO structure by updating meta tags, page structure, and indexing readiness for key pages.
- Collaborated with developers to fix UI inconsistencies and enhance overall user experience across multiple components.

Freelance Frontend Developer | Private Client 08/2024 - 12/2024

- Developed and distributed a production-ready Quran web application for a private client using React.js, React Router, Bootstrap, and REST APIs, supporting complete Quran content across 114 chapters.
- Implemented chapter navigation, verse search, audio playback, and dynamic routing across all 114 Quran chapters, improving content accessibility and user navigation.
- Managed project milestones from requirements gathering to final delivery, completing the application within the agreed timeline.

Frontend Developer Intern | Master Web 11/2024 - 01/2025

- Converted 3–4 PSD designs into responsive, pixel-perfect web pages using HTML5, CSS3, and JavaScript.
- Built responsive UI components for 3–4 projects and incorporated feedback from senior developers to improve code quality and maintainability.
- Contributed to 3–4 projects while adhering to company coding standards, improving consistency, maintainability, and responsiveness across presented pages.

PROJECTS

Movie Web Application | *React.js · TMDB API · Axios · Vite · Tailwind CSS · React Router*

- Engineered a movie and TV browsing platform featuring search, filtering, dynamic routing, and 20+ reusable React components.
- Reduced API calls by leveraging TMDB's `append_to_response` parameter, cutting network overhead and improving page load performance.

Typing Speed Test App | *Vanilla JavaScript · Tailwind CSS · GitHub Pages*

- Created a real-time typing speed calculator with multiple difficulty levels and mobile-friendly interactions.
- Refactored reusable utility functions, reducing code duplication and improving maintainability.

Task Management Application | *React.js · Redux Toolkit · Tailwind CSS · localStorage*

- Designed a task management application supporting CRUD operations, recurring schedules, task prioritization, filtering, and persistent localStorage storage.
- Implemented centralized state management using Redux Toolkit and responsive dashboards with productivity tracking metrics.

Portfolio Website | *React.js · SCSS · Bootstrap · React Router · GitHub Pages*

- Deployed a personal portfolio showcasing 13+ projects, achieving a Lighthouse Accessibility and SEO score of 90+.
- Reduced image payload by lazy loading, improving Time to Interactive on mobile devices.
- performed manual regression testing before every deployment

TECHNICAL SKILLS

- React.js · TypeScript · JavaScript (ES6+) · Redux Toolkit · React Router · State Management
- Component-Based Architecture · API Integration · Performance Optimization · Debugging
- HTML5 · CSS3 · Tailwind CSS · SCSS/Sass · Bootstrap · Responsive Design · REST APIs
- Axios · JSON · Git · GitHub · Version Control · Vite · NPM · Figma · MySQL · SQL Server
- NoSQL · C++ · Python

EDUCATION

Faculty of Computers & Information Technology | Damanhur University *09/2020 - 07/2024*

- Competed twice in ICPC regional programming contests.
- Ranked among the Top 4 teams out of 50 in the Egypt Makes national technology competition.

Certifications

Frontend Web Development Certificate | Instant Academy | *08/2023 - 02/2024*

Completed an intensive 6-month program covering HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, REST APIs, and responsive web design.
